Projects

Second Brain AI | [GitHub Repository](#) | [Demo Video](#)

Jun '26 - Jul '26

- Built a full-stack Retrieval-Augmented Generation (RAG) pipeline enabling semantic search and question-answering over personal notes and PDF documents.
- Engineered a FastAPI backend with ChromaDB for vector storage and retrieval, integrating the Groq LLM API to generate fast, low-latency, context-grounded answers.
- Designed a React frontend for document upload and chat-based querying, giving users an interactive way to search and converse with their own knowledge base.
- Tech stack : FastAPI, ChromaDB, Groq LLM API, React, Python, JavaScript**

Movie Recommendation System | [GitHub Repository](#) | [Live Demo](#)

Sep '25 - Oct '25

- Built a content-based movie recommendation engine using cosine similarity over movie metadata (genres, overview, keywords, cast, crew), with an interactive Streamlit interface for real-time recommendations.
- Performed end-to-end data cleaning, text normalization, and feature engineering on the dataset, then constructed a similarity matrix using Scikit-learn to power fast, relevant recommendations.
- Containerized the application with Docker and deployed it on AWS EC2 with a GitHub Actions CI/CD pipeline for automated, repeatable deployments.
- Tech stack : Python, Pandas, NumPy, Scikit-learn, Streamlit, Docker, AWS EC2, GitHub Actions**

Training

Summer PEP Training

Jun '25 - Jul '25

ByteXL & Lovely Professional University (LPU)

- Completed an industry-oriented summer program focused on strengthening programming fundamentals, problem-solving, and core computer science concepts.
- Learned C++ best practices and studied Data Structures & Algorithms in depth (arrays, linked lists, stacks, queues, trees, graphs, DP, greedy, sliding window, hashing, recursion, backtracking).
- Improved logic-building and problem-solving speed by practicing extensive coding problems on LeetCode and GeeksforGeeks.

Certificates

AI Foundations Associate

Jul '26

[Oracle](#)

Privacy and Security in Online Social Media

Nov '25

[NPTEL](#)

Responsive Web Design

Nov '23

[freeCodeCamp](#)

Technical Skills

Languages: C++, C, Python, JavaScript, SQL

Frameworks/Libraries: FastAPI, React, Scikit-learn, Pandas, NumPy, Matplotlib

Tools/Platforms: Docker, AWS EC2, GitHub Actions, ChromaDB, Streamlit, Git, Google Colab, Jupyter Notebook

Soft Skills: Problem-Solving, Team Player, Analytical Thinking

Education

Lovely Professional University

Aug '23 - Present

Bachelor of Technology - Computer Science and Engineering; CGPA: 8.08

Phagwara, Punjab

ADC Inter College

Apr '22 - Mar '23

Intermediate; Percentage: 74

Amroha, Uttar Pradesh

St. Mary's Sr. Sec. Convent School

Apr '19 - Mar '20

Matriculation; Percentage: 91.6

Gajraula, Uttar Pradesh
